LABOR FEDERATION

GOMPERS IS VIGOROUSLY OPPOSED FOR PRESIDENT.

Open Shop and Various Anti-labor Movements Will Be Considered—Federation Has Increased 400,000 in Membership During the Past Year—Amalgamation With Western Federation of Miners Is Proposed—Has Reserve Fund of Over \$100,000 on Hand.

The active issues presenting themselves to the coming session of the American Federation of Labor at San Francisco are succinctly stated below, with a resume of the work of the order during the past year, a statement of its financial condition, and review of its growth.

In point of total votes represented—16,000 in all—the 24th annual convention of the American Federation of Labor to be held in San Francisco on November 14 will be the largest on record, although the actual attendance will be smaller than usual. Last year, when the federation met in Boston, 496 delegates were present. This year it is not expected that more than 300 will attend. This is on account of the long distance to be traveled by most of the delegates, and the fact that favorable rates could not be secured from the railroads.

The most interesting feature of the convention will be the election of officers. President Samuel Gompers will again have to face the opposition that met him at Boston. At that time James Duncan, first vice-president of the federation, national secretary of the powerful stonecutters' union, was his opponent for the election. Duncan had behind him John Mitchell, of the Mineworkers, the man with the strongest following in the world of organized labor, save only Gompers. Duncan and Mitchell and their supporters counted noses on the morning before election last year and they came to the conclusion that they were about 2000 votes short of controlling the convention, composed of a little more than 14,000 votes. Duncan was, therefore, withdrawn.

The open shop and anti-labor movement, as personified by so-called on the Citizens' Alliance movement, will come in for a great share of the discussion scheduled for the convention. The open shop agitation has made a great deal of trouble in trades unionism within the last year. Leaders of the Federation declare that the open shop slogan and the alleged non-Americanism of the closed shop have been used by employers as an excuse for not dealing with the unions. The agitation has affected nearly every trade in the country because of its many agreements that might otherwise have been continued, have not been renewed.

Equally earnest will be the debate on the citizens' alliance movement. Its growing power is admitted, but President Gompers points to the fact that the membership of the American Federation has grown to 1,800,000 since the last convention—an increase of nearly 400,000—as an indication that the trades union movement is too powerful to be affected by adversaries of that character.

Another important labor matter will be the indirect result of the butcher workmen's strike in Chicago and elsewhere. It being the present program to re-organize the butcher workmen along better lines.

For the first time in the history of the American Federation politics will cut a figure in the proceedings. The proposition to quiz candidates on subjects pertaining to the labor movement will be discussed and the plan will probably be adopted as a permanent policy of American labor, with the tacit understanding that those whose replies are most satisfactory will receive the support of the members of the federation.

One of the most important questions before the convention will be the Colorado strike. There are strong indications that there will be conferences looking to the amalgamation of the Western Federation of Miners with the federation.

Reports of officers will show the federation to be in a thriving condition. The receipts for the year were \$291,000, disbursements \$183,000. The capital on hand is in excess of \$100,000. The number of national and international organizations in the federation has grown from 181 to 120.

The organ of the Federation, the American Federationist, which was \$14,000 in debt a year ago, is now on a paying basis.

INDIANS "GET EVEN."

Silets Swashes Will Vote Solidly for Prohibition.

Reports from Lincoln county regarding the prohibition vote disclose a queer state of affairs, says the Salem Journal. People who have studied the situation say that the Silets Indians will almost vote as a unit for the prohibitory law.

The reasons assigned for this stand is that the Indians are "sore" at the saloon men of that country because they will not sell liquor to them and they reason, as they have the balance of power in Lincoln county, that if they cannot get intoxicating liquors they will vote away the right of the white man to do so.

The Indians also say that if the saloons are abolished that they will be able to get whisky at "blind pigs," and other places not now in existence. This reasoning may have considerable foundation.

This is the first time on record where "Lo" ever had a chance to "even up" with a vengeance, and it is presumed that he will enjoy the privilege. The result of the vote in the Silets will be watched with interest throughout the state.

50c. Bottle Free.

When Medicine Fails, Try Liquozone—We'll Pay for it.

Medicine must fail in a germ trouble, because medicine never kills inside germs. Any germ-killing drug is a poison to you, and it cannot be taken internally.

Liquozone is the only way known to kill germs in the body without killing the tissues, too. It does in a germ trouble what no drugs, no skill in the world, can accomplish without it. To prove this—if you need it—we will gladly pay for a bottle and give it to you to try.

Acts Like Oxygen.

Liquozone is the result of a process which, for more than 20 years, has been the constant subject of scientific and chemical research. Its virtues are derived solely from gas, made in large part from the best oxygen producers. By a process requiring immense apparatus and 14 days' time, these gases are made part of the liquid product.

The result is a product that does what oxygen does. Oxygen gas, as you know, is the very source of vitality. Liquozone is a vitalizer with which no other known product can compare. But germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetable matter. Yet this wonderful product which no germ can resist, is, to the human body, the most essential element of life.

We Paid \$100,000

For the American rights to Liquozone—the highest price ever paid for similar rights on any scientific discovery. We did this after testing the product for two years, through physicians and hospitals, in this country and others.

That price was paid because Liquozone does in germ troubles what all the drugs, all the skill in the world, cannot accomplish without it. It carries into the blood a powerful yet harmless germicide, to destroy at once and forever the cause of any germ disease. And no man knows another way to do it. Liquozone is so certain that we publish on every bottle an offer of \$100,000 for a disease germ that it cannot kill.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

Asthma
 Abcess—Anemia
 Bronchitis
 Blood Poison
 Bright's Disease
 Bowel Troubles
 Coughs—Colds
 Consumption
 Colic—Croup
 Hay Fever—Influenza
 Kidney Diseases
 La Grippe
 Leucorrhea
 Liver Troubles
 Malaria—Neuritis
 Many Heart Troubles
 Pleurisy—Pneumonia
 Rheumatism
 Skin Diseases
 Scrofula—Syphilis
 Stomach Troubles

 Typhoid—Typhus
 Varicella
 Women's Diseases

Constipation
 Catarrh—Diarrhea
 Dysentery—Dropsy
 Eczema
 Erysipelas
 Fever—Gall Stones
 Gout—Hemiplegia
 Indigestion—Gleets
 All diseases that begin with fever—all inflammation—all catarrh—all contagious diseases—all the results of impure or poisonous blood. In nervous debility Liquozone acts as a vitalizer, accomplishing what no drugs can do.

50c. Bottle Free.

If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order on your local druggist for a full-size bottle, and we will pay your druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquozone is, and what it can do. In justice to yourself, please accept it to-day, for it places you under no obligation whatever. Liquozone costs 50c. and \$1.

CUT OUT THIS COUPON

For this offer may not appear again. Fill out the blanks and mail it to the Liquid Ozone Co., 458-460 Wabash Ave., Chicago.

My disease is.....
 I have never tried Liquozone, but if you will supply me a 50c. bottle free I will take it.

E. J. MURPHY

121 Court Street

JIM HILL WOULDN'T.

So the Farmers Built a Railroad for Themselves.

The farmers of Ramsey county, North Dakota, hauled in their grain—often a distance of 25 miles—to Devil's Lake, the county seat, through which the Great Northern railway passed. It kept the farmers hauling grain all winter.

They asked James J. Hill, president of the Great Northern railroad, to build a branch line from Devil's Lake up through their section. Mr. Hill said he could not build. Six of the largest farmers met at a school house. One of them was Joseph Kelly, who owned 900 acres of land, and who hauled his wheat 15 miles to Devil's Lake. Mr. Kelly said, "If the Great Northern won't build, we will build." And the farmers built a railroad 25 miles long.

They asked every farmer who hauled grain to Devil's Lake to subscribe. Some subscribed \$25, others \$500. They raised \$50,000.

They went a farmer to Duluth to buy ties and another to St. Paul to buy old rails. A land promoter was building a small branch line out of Devil's Lake to the south, and they got him to survey the road. They hired section hands to lay the track. But they needed more money. They bought land along the line and laid out three towns, sold the lots, and used the money to buy an old engine, a day coach, and four box cars from the Great Northern railway.

Then the road was started. It will stop for any farmer at any place. Last year the road made its expenses. It hauled 100,000 bushels of wheat. This year, with the railroad at hand, the farmers planted more wheat and the road will haul 2,000,000 bushels.

I went to Starkweather, the largest town laid out by the farmers on their road. Two years ago the site was a flax field. I found it a bustling place, with 30 stores and houses, 400 people, a school house that cost \$10,000, three elevators with a capacity of 250,000 bushels, three banks, a newspaper and a church. At the other two towns, which a year ago were farm lots, I found grain elevators, schools and stores.

Here is what these farmers had done when they built their railroad: Established three towns, increased the price of land along the way 75 per cent, increased their yield of wheat, built schools, established telephones. They made a whole community richer and independent. Isaac Marcosson in World's Work.

Cincinnati Women to Vote.

Cincinnati, O., Nov. 7.—The indications are that many Cincinnati women will avail themselves of their right to vote for candidates for the board of education at tomorrow's election. It is believed by competent critics that not less than 5,000 women will cast ballots. The schools have been much discussed recently, it being charged that the local schools are inferior to those of other cities.

COMING EVENTS.

November 14—Annual meeting Oregon Miners' Association, Portland.

November 15-16—State Bar Association, Portland.

November 16-24—National Grange meeting, Portland.

November 15-18—National Irrigation Association, El Paso, Texas.

November 25-26—State convention county clerks and recorders, Portland.

December 13-15—Oregon Good Roads Association, Salem.

January 20—Inland Empire Sunday School Institute, Pendleton.

Not a Sick Day Since.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of rheumatism, neuralgia, liver and kidney troubles and general debility." This is what B. F. Bass of Fremont, N. C., writes. Only 50c at Tallman & Co.'s druggists.

Ibsen's "Ghosts."

Henrik Ibsen, who by many is regarded as the greatest dramatist alive, has become so old that further work from him is not to be expected. Already he has made contributions to the drama which are invaluable. His gospel is the gospel of truth and no thinking person thinks of gainsaying the fact that Ibsen holds the mirror up to the stage. America will see some of his works played this year by Mrs. Fiske and Mr. Harry Mestayer. Mr. Mestayer, who is the most recent acquisition to the list of stars, is touring the country in "Ghosts," the psychological drama, which Dr. Ibsen regards as his masterpiece.

A Runaway Bicycle.

Terminated with an ugly cut on the leg of J. B. Orner, Franklin Grove, Ill. It developed a stubborn ulcer unyielding to doctors and remedies for four years. Then Bucklen's Arnica Salve cured. It's just as good for burns, scalds, skin eruptions and bites. 25c at Tallman & Co.'s drug store.

Golden Rule Store.

By mistake of the factory the Golden Rule Store has about three times as many golf gloves as were ordered. Rather than return them, it has been decided by a big reduction in price to close them out. You ought to see the 50c values they are offering for 25c, and the 75c values which go for 40c.

Notice to Debtors.

All persons knowing themselves indebted to the firm of Senes & Walker, Helix, Oregon, will please call and settle at once. As we have sold out our entire interest. All bills payable to P. H. Senes & Walker.
